

LES ROSIERS « Saignée » Extra-brut

A plot of land « Les Rosiers », a grape variety « Le Pinot Noir' and only one vintage gave birth to this unique and exclusive champagne.

This rosé takes its substance and its fruity flavour from a short maceration (la saignée*) of the juice with the grapes skin.

This very rare method in Champagne produces more winy and complex rosés devoted to the table. This champagne developed for the table will perfectly go with a stuffed capon. Fruit desserts are perfect agreements for it.

* heavy loss
